## Education

### Aravali College of Engineering and Management

2021 – 2025

*Bachelor of Technology (B.Tech) in Information Technology*

*Jasana Tigaon Road, Faridabad, Haryana*

## Experience

### Softsynth Software Solution Pvt Ltd

Jan 2025 – Present

*MERN Stack Developer*

*Faridabad, Haryana*

- Developed and deployed full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Implemented RESTful APIs, authentication, and integrated third-party services to enhance application functionality.
- Created responsive, dynamic, and user-friendly interfaces using React, HTML, CSS, and JavaScript.
- Collaborated with cross-functional teams using Git and Agile methodology for efficient project management.
- Optimized backend performance and managed data storage using MongoDB Atlas.

## Projects

### Weather App | *HTML, CSS, JavaScript*

March 2025

- Built a responsive web application to display real-time weather information for multiple cities.
- Integrated external weather APIs to fetch live weather data, including temperature, humidity, and forecast.
- Implemented interactive UI features like search, icons for weather conditions, and dynamic background changes based on weather.
- Enhanced user experience with smooth transitions, tooltips, and error handling for invalid city input.

### Shop Ease | *React.js, Redux Toolkit, React Router, Tailwind CSS*

August 2025

- Developed a responsive single-page e-commerce application with modern UI/UX for seamless shopping experience.
- Implemented product listing, cart management, and dynamic routing using mock API integration.
- Used Redux Toolkit for state management to efficiently handle cart, product, and user state across the app.
- Built responsive layouts using Tailwind CSS for mobile and desktop views.
- Enhanced user experience with smooth navigation, interactive product filters, and dynamic updates to cart and checkout.

### Doctor Appointment Booking System | *MERN Stack*

October 2025 – Present

- Developed a full-stack web application for doctor-patient appointment booking with real-time availability.
- Implemented secure login and role-based dashboards for doctors and patients, ensuring data privacy and proper access control.
- Added profile management, CRUD operations for appointments, and history tracking for improved workflow.
- Used Axios for API integration, React Hooks for state management, and MongoDB for persistent data storage.
- Currently maintaining and updating the application with new features and performance optimizations.

## Technical Skills

**Languages:** JavaScript, HTML, CSS, Node.js

**Frameworks/Technologies:** React.js, Redux Toolkit, Express.js, MongoDB, Mongoose, REST APIs, JWT, Tailwind CSS.

**Tools:** VS Code, Postman, MongoDB Atlas.
